EDUCATION

Sam Houston State University- Huntsville, TX
Bachelor of Business Administration, Management Information Systems

Graduate May 2026
Dean's List Fall 2025

WORK EXPERIENCE

E-commerce Assistant / Teaching Assistant (HTML & CSS Support)- SHSU Huntsville, TX

August 2025 – April 2026

- Applied problem-solving and debugging skills to assist 30+ students with HTML/CSS issues
- Provided technical guidance to strengthen students' understanding of web development concepts and reduce recurring coding errors

Real Estate Agent -NB Elite Real Estate, Houston, TX

July 2023 – Present

- Managed end-to-end real estate transactions, ensuring accurate documentation and supporting pricing decisions through market and financial analysis
- Analyzed property market trends, comparable listings, and financial data to support pricing strategies and negotiations, including contributing to a property negotiation from approximately \$250K to \$100K

Receptionist/ Operations & Data Support- Sweet Nail and Spa, Montgomery, TX

December 2019 – May 2023

- Analyzed 300+ transactions using Excel to identify peak sales periods and customer trends, leading to more efficient staff scheduling and reduced waiting times by 15%
- Monitored revenue trends and performed financial reporting and reconciliations to support data-driven decision-making

PROJECTS

Business Intelligence System (Power BI + SQL)

- Developed an automated business intelligence dashboard to track revenue, taxes, and employee performance
- Utilized SQL to analyze and transform data into actionable insights, reducing manual financial calculation time and improving operational efficiency by 7%, and enabled real-time reporting and eliminated manual end-of-day calculations

Financial Data Analysis & Trading Indicator (Python)

- Designed and implemented a custom trading indicator in Python to analyze real-time financial data
- Identified market patterns and supported data-driven investment decisions to increase profit by 5%

ERP System Experience (SAP S/4HANA – Academic Project)

- Applied SAP S/4HANA (MM, PP) to simulate procurement and production processes in a real-world ERP environment
- Analyzed system workflows and data integration to support efficient business operations
